

## **MS Graduate Research Assistantship Fisheries Biology/Aquatic Ecology**

- Location:** Department of Fish, Wildlife, and Conservation Biology, Colorado State University, Fort Collins, Colorado State University
- Responsibilities:** The successful applicant will work with Dr. Myrick on a 2-year project evaluating the potential use of copper and copper-based substrate treatments as barriers to the upstream movement of New Zealand mudsnails. The student's research will involve field and laboratory research on the use of these substrates as barriers to New Zealand mudsnail movements.
- Qualifications:** B.S. in fisheries, biology, or related field; GPA  $\geq$  3.0; GRE scores (verbal + quantitative)  $\geq$  1200. Potential applicants are encouraged to visit <http://welcome.warnercnr.colostate.edu/fwcb-grad-application.html> for more information on the application process to the Department of Fish, Wildlife, and Conservation Biology.
- Salary:** \$1,500/month stipend, plus in-state tuition; non-resident tuition waived for first year while establishing residency<sup>1</sup>
- Closing date:** Open until filled. Review of applications will begin on April 21<sup>st</sup>, 2008.
- Start Date:** August 2008
- Contact:** Send cover letter, résumé, unofficial transcripts and GRE scores to:
- Dr. Chris Myrick
